Offering robust and eco-friendly resinous flooring solutions for
industrial and commercial concrete floors @ EPX Floor Tech
Sydney, New South Wales, Australia

Summary

I offer robust and eco-friendly resinous flooring solutions for industrial and commercial concrete floors @ EPX Floor Tech. I have had the opportunity to work as a technical consultant in protective coating manufacturers and the application side of protective and resinous floorings. So my experience and services extend from manufacturing to application of all resinous flooring systems, including but not limited to epoxies, polyurethanes, and polyurea.

I am a technically experienced executive with a background in science and have a deep affinity for Physics and Material Science. I am an active contributor to various scientific journals as an author and also a reviewer for two international journals.

Honors:

- contributed to the national editing committee for writing Iranian national standards as a member
- gave technical consultation and provided expert witness to NuFurn Pty Ltd on publishing a US patent
